

Gun and Howitzer Regiment - 1961

Headquarters

85mm Gun Battery

Headquarters

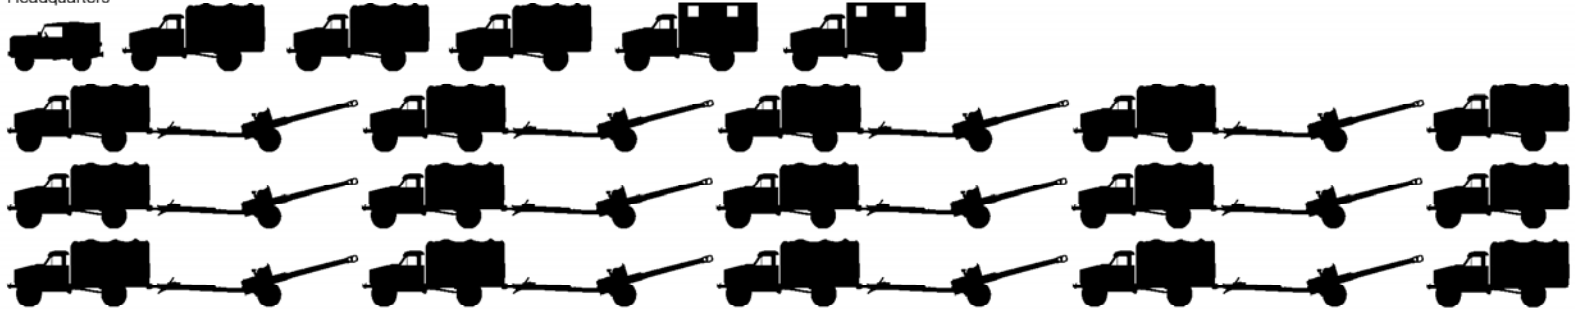

Support Troop

85mm Gun Battery

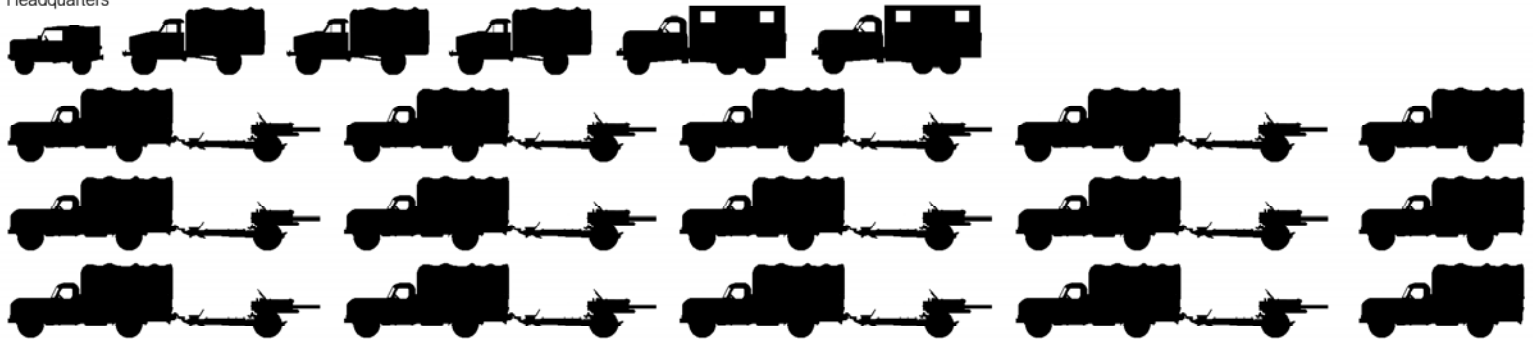

Headquarters

Support Troop: same as above

122mm Howitzer Battery

Headquarters

Support Troop

This ORBAT shows the vehicular/weapon strength of the combination gun and howitzer regiment found in a rifle division in 1961. I find 1961 the most interesting year of all as it had such a variety of equipments and unusual combinations thereof. This document was taken from unclassified sources under protest.
