

# Canadian M109 155mm S.P. - European Pattern

This is the official pattern as used by 4 Canadian Mechanized Brigade Group in Germany. For winter exercises the black was over-painted with white-wash.

- FS 36081 Black
- FS340098 Khaki Drab
- FS34172 Green

Note: this is a pattern only, showing new paint colours. Every vehicle could, and usually did, have a variation in pattern from trivial to major. All three colours faded very quickly and were drastically altered by dirt and dust. The older and more faded the green became, the more it tinted blue. The khaki merely lightened and the black faded. Touch-ups were frequent and very obvious.
