

Soviet Tank Division

1961

Organisation

Note: The following organisation represents the average tank division's composition. In order to reduce the size of the document I have shown the entire structure below but not within the ORBAT. Those units within the division of regimental size are separate and I have indicated in the divisional structure where they are to be put. In this way I will be able to keep the divisions to less than 10 pages (each regiment runs between 1 and 5 pages). Any errors within are mine and I welcome constructive criticism as I do additional material. Some units are very close in size and structure so those that initially appear the same may not be so.

Tank Division
